

## THE DICK TWO TON BAKER DISCOGRAPHY

Two Ton's "home" label was Mercury, and the vast majority of the recordings shown here are on that label. This info was taken from *The Mercury Labels: A Discography (vol. 1: The 1945-1956 Era)*, by Michel Ruppli and Ed Novitsky. Typographical errors and bizarre typographical usages are not corrected, and even I haven't sorted out some of the quirky usages, but I have added some notes [in brackets] making corrections or additions. All records listed here are 78s unless otherwise indicated.

The leftmost number in the listings is the record company matrix number; if it is underlined, it means I have a copy of that recording. Likewise, an underscore under the record number (e.g., Merc 5066), means that I have that record (in a few cases, I have a copy of the recording but not the record itself).

\*\*Something's screwy here: The Mercury discography has these three songs all on Mercury 5266, which is impossible. I have three copies of that record, and the two songs on them are "Put Your Shoes On, Lucy" and "All Right Louie." The "(1)" and "(2)" after 5266 on "Myrtle" and "Louie" seem to indicate that the compilers of the discography intended to explain this incongruity, but there are no such notes to be found.]

<sup>3</sup>Actually, titles are "You Got to Be a Hero Nowadays," parts 1 & 2; record number is MMP 59 on decorative sleeve, but 59-79M on record label.

<sup>4</sup>Titles are "It's a Merry Christmas After All," parts 1 & 2; record number MMP 60-79M on record label.]

[The Mercury discography treats this batch as one recording session, but the gap in matrix numbers makes that unlikely. I suspect that the four "Gus the Gopher" sides were done in a separate session. And note that 2986 seems to be just a repeat of the 2861 Gus the Gopher song with an added "gopher palaver" introduction spliced on.]

## TRANSCRIPTION DISCS

Transcription discs were specially recorded and sent through the mail to subscribing radio stations for later playback. There were transcription discs in the 78 era, but Two Ton's were all 33 1/3 rpm discs, some of which were 16" in diameter, a size that radio station turntables could handle but that never caught on with home machines. Also, transcription discs typically didn't have grooves leading from one track to the next. It was felt—rightly, I'm sure—that if an engineer's attention lapsed, it was better to have a few extra seconds of dead air than to have the next show start unexpectedly.

I never had the actual discs in hand for this set, just 48 of the shows. Each ran 4 1/2 minutes: one minute intro, one minute piano interlude for local announcements or commercials, then the tune for the day.

## RADIO SHOWS

Not strictly "discographical" material, but some of Two Ton's radio shows have survived, so I'll document them here. As with everything else, I'm eager to acquire more.

### Mutual Network Show

Two Ton Baker did a 15-minute show from Studio 2 in his "home" station of WGN that was fed to subscribing stations all over the country on the Mutual

Broadcasting System. I have three shows, all of which came from nostalgia radio host Chuck Schaden in Chicago. (The dates are from Schaden, but the second one is suspect, as Baker refers to something happening on Aug. 8 as if it were a few days in the past.)
